

James Canyon Fire Department Auxiliary Organization

James Canyon Volunteer Fire Department Auxiliary is comprised of volunteers who desire to support the fire department and the community that it serves, but do not wish to serve as firefighter or Emergency Medical Service personnel. Our Auxiliary volunteers' efforts can be just as important to the success of the department as all others. A few of the responsibilities include bringing food to the fire house to prepare meals for our firefighters in the field, helping organize and work the yearly BBQ, buy food supplies for trucks in the field and finally, inventory all kitchen supplies and keep them current for the dinner that precedes our monthly meeting which is sponsored by the auxiliary.
